License details

State	Alabama
License #	10142723
CE Cycle	10/01/2022 - 09/30/2023

Course history
 Not complete? To figure out what's missing, compare course completions for the current license cycle to your renewal requirements. [↗](#)

This screen represents your dashboard when you have logged in and created a password.

At the top will be your license number and title indicator. If you want to report your CEs, click on the white box in the upper right corner.

To the right of the arrow, you will see the status of the continuing education credits you have uploaded. Once this box says Complete, you are in compliance for the current year according to what you have entered as credits in CE Broker. CE Broker does not determine if the CEs are approved by the Board. This function will be determined by a Board audit.

Below, in the dashboard, you will see a list of courses you have entered.

To the right, there is a box allowing you to download a pdf report. If you would like to see what you are missing in CEs, this report is a great place to look.

The CE report will list courses, completion dates, providers, who reported it (could be self-reported or reported by an approved provider of CEs), subject areas covered, and credits earned. If there is an error or a section is missed, this report will give you information as to what needs to be uploaded. You can delete something put in the wrong section and re-upload it. If there is a problem with this, the customer service at CE Broker can help. 877-434-6323

If you have not completed your CE hours within the 10/1/xxxx-9/30/xxxx time period, the CE Broker platform will backfill the hours in the previous year until you are complete before it will begin posting to the new CE period.

On the new transcript you would see this message:

Polycystic Ovarian Syndrome
2 hours not applied. Posted to prior license cycle.
Excess Hours not applied:2

02/23/2021

And on the old transcript you would see this at the top:

Period
03/01/2018 - 02/28/2020 ▼

Detailed view

Some hours were applied after the CE cycle ended
