 - b. The Wellness Committee Chair reviews the information provided by the practitioner and determines whether it meets the established requirements for a "self-report".
 - i. If the report does not meet the requirements, the chair will contact a member of the Enforcement Group and advise of the wellness/impairment issue. (see General Investigative Protocols).
 - ii. If the report does meet the requirements, the chair will follow the Wellness Committee's established protocols. To ensure confidentiality, the chair and Wellness Committee will process the report and ensure compliance with protocols independent of the Board. Those protocols will include, but are not limited to the following:
 1. The dental/dental hygiene practitioner shall report for a wellness evaluation at a board-approved facility within sixty (60) days of the self-report.
 2. The dental/dental hygiene practitioner shall comply with all requirements as established by the Wellness Committee. Failure to do so may result in the loss of a self-report/deferral status and the report being submitted to the Board for action.
 3. Self-report/deferrals are handled exclusively by the Alabama Dental Health Professionals Wellness Committee.
 4. To maximize the practitioner's opportunity for recovery while protecting public safety, the Wellness Committee may, if judged appropriate, enter into a voluntary agreement with the dental/dental hygiene practitioner to refrain from the practice of dentistry or dental hygiene, as applicable. Voluntary suspensions that occur at the instance of the Enforcement Group are public and will be reported to the National Practitioners Data Bank.
 - ii. The chair of the Alabama Dental Professionals Wellness Committee will be notified of the investigation. The Chair may be part of the investigative process offering guidance and advice, as needed.
 - iii. Should information gathered through the course of the investigation indicate a possible wellness/impairment issue, the dental/dental hygiene practitioner may be required to submit to a wellness evaluation at a Board-approved facility. The chair of the Wellness Committee will facilitate this process.
 - iv. Based on the outcome of the above evaluation along with active participation by the dental/dental hygiene practitioner in any recommended treatment plans identified by the Board-approved facility; the status of the complaint with the Board, the Wellness Chair, Enforcement Group, and Team leader; the practitioner may be offered a consent order that would allow the practitioner to return to practice with or without restrictions.
 - v. If the nature of the complaint or the practitioner is deemed an eminent or active public safety risk, the Enforcement Group may seek the issuance of an emergency suspension of license and any related permits. The emergency suspension would then proceed pursuant to Ala. Code (1975), § 41-22-19.
